## **DETAILED ACTION**

### ***Information Disclosure Statement***

The information disclosure statement filed May 25, 2006 fails to comply with 37 CFR 1.98(a)(2), which requires a legible copy of each cited foreign patent document; each non-patent literature publication or that portion which caused it to be listed; and all other information or that portion which caused it to be listed. It has been placed in the application file, but the information referred to therein has not been considered.

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-17 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The adsorption step in claim 1 renders the claim indefinite because it is unclear if a feed comprising m-xylene, p-xylene, ethylbenzene, and o-xylene is actually contacted with an adsorbent in the adsorption unit.

The expression "between the adsorption step and the isomerization steps, a step of purifying the paraxylene of at least a portion of the extract by crystallization" in claim 2 renders the claim indefinite because there is no indication that the extract fraction is passed to a isomerization step in claim 1.

Art Unit: 1797

The expression "a simulated moving bed" in line 8 of claim 3, renders the claim indefinite because it is unclear if the expression is the same as the simulated moving bed in claim 1.

The expressions "an extract", "an intermediate raffinate", and "a 2-raffinate" in lines 12-13 of claim 3, render the claim indefinite because it is unclear if the expressions are the same as the extract, the intermediate raffinate, and the 2-raffinate in claim 1.

Claim 5 recites the limitation "the first isomerization zone" in line 2. There is insufficient antecedent basis for this limitation in the claim.

Claim 6 recites the limitation "the second isomerization zone" in line 2. There is insufficient antecedent basis for this limitation in the claim.

Claim 15 recites the limitation "the catalyst" in line 2. There is insufficient antecedent basis for this limitation in the claim.
